

<b>Activity</b>	Design & Build of Waste Treatment and Anaerobic Digestion Plants for organic residues with impurities (e.g. food waste, commercial waste, biowaste, municipal solid waste) according to the BTA® Process
<b>Head office</b>	Pfaffenhofen an der Ilm (Germany)
<b>Employees</b>	20
<b>Foundation</b>	1984 BTA Biotechnische Abfallverwertung GmbH & Co.KG 2007 BTA International GmbH (member of the Agrafarm Technologies Group)
<b>Director</b>	Dipl.-Wirtsch.-Ing. Eike Liekweg Dipl.-Ing. Roland Pellegrini
<b>Concepts</b>	Anaerobic Digestion (AD) Plants for biowaste, food waste and commercial waste Mechanical Biological Treatment (MBT) Plants Co-Digestion of biowaste with agricultural residues and/or sewage sludge Integration / Retrofitting of wet pre-treatment plants in existing facilities Plant refurbishment / extensions
<b>International References</b>	53 plants world-wide (e.g. in Germany, Austria, Italy, Malta, Spain, Portugal, Poland, Luxembourg, UK, Canada, Australia and Japan) 2 plants under construction
<b>Memberships</b>	ANS Arbeitskreis für die Nutzbarmachung von Siedlungsabfällen e.V. Arbeitsgemeinschaft Stoffspezifische Abfallbehandlung Center for Research, Education and Demonstration in Waste Management European Compost Network ECN European Biogas Association Fachverband Biogas e.V.
